# DISCOVER WHY ROYAL WINDSOR RACECOURSE

IS ONE OF THE UK'S MOST VERSATILE SITES FOR FILMING

Located in the heart of the studio community in Berkshire, West of London, Windsor Racecourse is ideally suited to support a broad spectrum of productions.

Outside, there is vast green space as well as hard standing for unit base crews, a controllable road and industrial backdrops. Inside you'll find an authentic East End pub, stairways, kitchens and toilets along with a variety of spaces ideal as production offices, dressing rooms or for crowd holding. Many of these can be extended or reduced according to your needs.

We can offer on-site parking, sound infrastructure, easy access with close proximity to the M4, M25 and Heathrow Airport and an experienced team who have worked with some of the biggest production companies in the industry.
